Thanks for getting on to this. Was going to contact you about this.

He is also incorrect in his information but that is another issue!

Regards

Wayne

Hi [REDACTED]

Please follow up asap - if council images have been used in this post which is clear electioneering it's a breach of the rule that they must not use council resources.

Aside from any other concerns in relation to the post the images need to be checked and removed asap

Thanks!

margin achievable, see note

New posts

Do we need an aquatic solution? Yes.

Could this be achieved at either Onekawa or Prebensen? Yes.

Why the move? Yet to be accurately defined.

## Onekawa Sports Complex vs Prebensen Drive 'Greenfields'

The consultation of the Long Term Plan, provided a vulnerable result of only a 1% difference between the two options presented to Napier. A group of six councillors [myself included] have been seeking to re-engage with the community on this very issue. I firmly hold my position, that our residents, if well informed would also provide the council with a well-informed direction and, a clear mandate for future spending of their rates.

I have voted against this proposal, at every gateway. There are 6 of 12 councillors who seek a clear mandate for this level of spending, with only 1% difference in consultation results however, is not a clear mandate.

The Mayor and remaining six councillors support the new site on Prebensen drive. Every pool decision at the council has passed with a seven/six split on voting. Consultation has a 1% difference and current decisions of Council are passing with the narrowest margin achievable, one vote.

Do we need an aquatic solution? Yes.

Could this be achieved at either Onekawa or Prebensen? Yes.

Why the move? Yet to be accurately defined.
